A correspondent of the Cincinnati *Commercial* relates the following romance in his life:

In the year 1860, while prosecuting his favorite vocation as a pedagogue, a young

So favourable was the impression that your teacher had made upon the ether of the girl that, notwithstanding extreme tenderness of her years—she only thirteen—the consent of the lowered mother was readily given, and a blushing maiden was soon transferred to the fond wife, but the duties and cares of wedlock soon became irksome to the bride, and from keeping house they went boarding.

The husband was not long in discovering that his wife was still a child, in every sense, and he chided her as a child. One year from the date of the marriage she

ber, who put her in charge of an uncle, but put her in a convent in this city, where she remained a year or so, and when she was considered competent, was taken to a distant city and provided with a situation as a housekeeper of good stores, which place was filled with credit for two years. Subsequently she was employed in other cities, turning to Cincinnati and establishing herself as a dressmaker.

Time passed on and she married again, and being told that her husband was killed in the war. This last husband also died and she was again left alone.

New England. The rude winds of the North, and the cold sea breezes soon told upon the delicate constitution of the child of the early clime. Coughs, croup, and fever, and physicians advised a change of climate. She with her husband and only child, followed the advice, but it was too late, and she died at her father's, leaving a babe the only legacy to her husband. Making it difficult to keep the child himself, the father soon took mother wife, and proved a hard step mother, and the result was a separation after a few months. The father went to boarding with his

Next day received a letter in an unknown hand, requesting him to call at a given street number and see an old friend, signing an assumed name, which she had long been accustomed to. He called, and, to his astonishment, found his long lost wife, now no longer a school girl, but a well informed man, entirely unlike her former self. Reconciliation on all sides was soon effected, and the parties are now living pleasantly together, after a separation of ten and a half years.

LIVERPOOL, Dec. 17.—Intelligence has been received that the ship *Louvre* from Quebec, bound for Liverpool, was abandoned at sea.

LONDON, Dec. 17.—The *Herald's* special says:—Memorials to the Queen asking for the release of the Fenians imprisoned in various parts of the kingdom, were circulated and extensively signed at all the Catholic churches on Sunday last.

Dec. 17.—The *Times* says Reverdy Johnson's assurance that the Alabama negotiations are closed, must be accepted, though with surprise, seeing that he increased his demands after Lord Stanley had surrendered all that could be abandoned honourably. It regrets that so much has been made public about negotiations.

LIVERPOOL, Dec. 18.—The steamer *Columbia*, which sailed from New York, Nov. 28, for Glasgow, has not yet arrived, and apprehensions are entertained for her safety. Heavy premiums are demanded for insurance risks on the vessel. [Note.—The steamer *Puligny* which arrived at Boston, Dec. 16, reports, Dec. 9, saw steamer *Columbia* partially disabled by loss of her screw, but she required no assistance, and was proceeding to Queens-town under sail.]

LONDON, Dec. 18, midnight.—The following is the latest news from the East.—The Government has despatched two men-of-war to Syria to demand of Hobeit Pacha that he shall not obstruct the free entrance of the harbour. Three foreign war vessels are at Syria, belonging respectively to the French, British and Russian navy. Hobeit Pacha does not attempt to blockade Syria; he has already allowed two Greek ships to enter the harbour. Letters from Athens, dated Dec. 10, represent that the city was the scene of great popular animation; hands were flocking from the interior and parading around the city. Great bitterness of feeling was shown against the admiral of the French fleet in the Piræus, who was extremely unpopular on account of the energetic demands he had made on the Greek Government to preserve peace.

The *New York Herald's* special says:—The regular weekly statement of the Bank of England, made public to-day, shows that the amount of bullion in vault has increased £317,000 since last week.

The *Times*, in an article on the impending war in the East, holds that Greece is the aggressive party, because she ordered her vessels to fire upon Turkish men-of-war who might attempt to overhaul them.

The *Times* thinks the Great Powers will bring such a pressure to bear upon the Athenian government that peace will be speedily restored.

A despatch from Constantinople charges the Greeks with commencing hostilities. It asserts that, in the recent encounter, in the Archipelago, the *Eros* fired the first shot. The Turkish man-of-war returned the fire, and the *Eros* was all overboard. The *Eros* was a small vessel, and was sunk by the *Eros*. The *Eros* was a small vessel, and was sunk by the *Eros*. The *Eros* was a small vessel, and was sunk by the *Eros*.

MADRID, Dec. 18.—The *Herald's* Cadiz special says:—Notwithstanding the proclamation of neutrality, several of the prominent ones have been imprisoned here. About 75 altogether have been arrested and submitted to trial by court martial. Business has resumed its natural way, and the people are returning to their homes. Gen. Dulce sailed with his fleet for Cuba to-day.

PARIS, Dec. 18.—The *Moniteur* regrets the breaking out of hostilities between Turkey and Greece, and hopes that common action on the part of the Great Powers will shorten the duration and circumscribe the consequences of the rupture.

PARIS, Dec. 18.—The *Patrie* has special despatches, reporting that the Turkish ships have been sent to Greek waters to establish a blockade, and that Turkish troops are collecting on the Greek frontier to prevent volunteers from making incursions into Thessaly and Macedonia.

LONDON, Dec. 19.—The inability of the Great Powers to control the action of Greece in the troubles with Turkey, has caused a general falling off in all mentioned values here, and much distrust is felt. It is not believed that Russia will be able to give Greece any material aid.

The latest despatch says that the Turkish Admiral will await orders from his Government, at the request of the French Admiral, before using coercion with the *Eros*.

Despatches from Constantinople report that the Turkish Commander, Onah Pasha has been forbidden by his Government to invade Grecian Territory, unless armed hands of Greeks pass the Thessalian frontier.

John Laird, Member of Parliament for Birkenhead, publishes to-day the correspondence he had with Reverdy Johnson, showing the origin and course of the friendship that exists between them. Mr. Laird himself made the first advances towards friendship, in October last, in London, before the Liverpool banquet. Mr. Laird invited Mr. Johnson to Birkenhead, to see his establishment and to hear his wishes for lasting peace between England and America. Mr. Johnson, in his reply, said that lack of time would prevent his acceptance of the invitation, adding the following words: "Notwithstanding you sympathized with my Southern brethren during the late war, I shall have much pleasure in making your acquaintance and hear your sincere wishes for peace."

The *Times* this morning, in commenting on a speech recently delivered by Mr. Johnson at the Birkenhead Institution, says that the sum of Mr. Johnson's policy is that trifles must not prevent the preservation of peaceful relations between England and America. The *Times* hints that the American objection to the treaty should, therefore, be withdrawn.

GIBRALTAR, Dec. 18.—There was a heavy shock of an earthquake here to-day, but it caused no damage to life or property.

NEW YORK, Dec. 19.—The *Herald's* Constantinople special says:—The news is confirmed that the ultimatum of the Sultan has been rejected by Greece. The *Eros* has been encountered by a cutter belonging to Hobeit Pacha's fleet near Syria.

The *Eros* ran into Syria, damaged. A later despatch says the rumour to the effect that the Turkish admiral Hobeit Pacha followed the Greek steamer *Eros* into the harbour of Syria and sunk her, lacks confirmation. It is said that the commander of the French war steamer *Faustin* requested the Turkish admiral not to adopt any coercive measures until he heard from Constantinople. This the admiral agreed to do, and now awaits orders.

HANGING OF THE RENO BROTHERS AND ANDERSON.

FURTHER PARTICULARS.

INDIANAPOLIS, Dec. 12.—The Seymour vigilance committee visited the New Albany jail this morning, about three o'clock, and hung the Reno brothers and Charles Anderson inside the jail, and left town before any alarm was given.

NEW ALBANY, Dec. 12.—Between the hours of three and four o'clock this morning, from sixty to seventy Seymour Regulators, masked and heavily armed arrived here via Jeffersonville Railroad, and immediately upon their arrival they proceeded by a direct route to the county jail, placing guards at every street to guard against surprise. Arriving at the jail, one of the guards stationed outside took alarm and attempted to raise an alarm, but was quickly taken in charge of and placed under guard.

They then entered the office of the jail, and after twelve or fifteen of them entered, Sheriff Fullcock, awakened by the disturbance, came to the door, and when they demanded the keys attempted to get away by dodging down a cellar way and coming out on the outside of the building, but here he was commanded to surrender, and by some means was shot through the arm. They had now complete possession of the jail and found the keys in the Sheriff's bed-room, when they immediately proceeded to the cells, and forced one of the guards to unlock them.

They then took Frank Reno, Simon Reno, Bill Reno, and Charles Anderson, the express robbers, out, and hung them to the iron railing or posts supporting the walk around the outside of the cells. The victims were placed in chairs, the ropes adjusted, and the chairs kicked from under them. Frank and Simon were hanging to one post, Simon in front and Frank behind him; the other brother was hanging at a corner post, and Anderson in the back-way in the rear of the jail.

After being satisfied that their victims were dead, the bold murderers, quietly locking the jail on all its occupants, taking the keys with them, and taking one of the county commissioners to the depot, then after all being ready they started away, giving the commissioner the keys. The alarm was sounded, but too late; no one could be found, and all that remained to show their presence, was the dead bodies of the express robbers.

The most intense excitement prevails here, and is getting much higher every moment. The news spread like wildfire. Mrs. Frank Reno and Mrs. Anderson are in the city. Frank Reno, the regulators, and knocked them down, but was overpowered and knocked senseless—his head being badly bruised, and blood running down his face. The victims presented a ghastly and horrible spectacle.

LOUISVILLE, Dec. 12.—Additional particulars of the tragedy at New Albany have been received. About three o'clock this morning Mr. Luther Whittey, one of the outside guards of the jail, was met at the entrance by a party of men who presented pistols at him, demanding silence or death. Whittey shouted, however, but was seized, knocked down and informed that if another shout was uttered he should die. By this time the jail office was filled with men searching for the keys. Sheriff Fullcock understanding the situation came down from his sleeping apartment, and gained the door leading to the grounds on the west side of the jail. Here he met an armed force with pistols directed at him, he exclaimed: "Gentlemen don't shoot me, I'm the Sheriff." One of them, however, fired, the shot taking effect in his right arm, inflicting a serious and painful wound. They then demanded the keys, but he positively refused to surrender them. About a dozen of the men then entered Mr. Fullcock's room, where his wife lay in bed. They demanded the jail keys of her, which she refused. They succeeded, however, in finding them concealed in a drawer. Thomas Matthews, one of the inside guard, was compelled to open the cells of the men who had determined to hang. Frank and William Reno were the first victims dragged out, and they were hung alongside of each other on the same pillar. Simon Reno was then brought out, but he fought the mob with great desperation, knocking one or two down before he was overpowered, and left suspended between the ceiling and floor. Charles Anderson, the last victim, was heard to beg for the privilege of praying, but this request was refused, and he was hung at the south-west corner of the jail cell.

After a further threat of killing the Sheriff, the mob proceeded to the train, carrying with them the jail key. From the jail to the train armed men stood guard to prevent any alarm being given. At four o'clock, the train with the entire party, consisting of from seventy five to one hundred men, started off. They came well armed and equipped for the work. They intended to hang a man named Clark, the murderer of George Tille, but they concluded not to do so, fearing to remain longer. The vigilantes came from Seymour, Indiana, in a car by themselves, attached to a regular train. Charles Anderson and Frank Reno were surrendered by the Canadian authorities, upon the solemn pledge of the United States Government that they should have a fair trial, and if found innocent, be returned to Canada.

THE NEWMARKET COURIER.

THURSDAY, DECEMBER 24, 1868.

TO OUR READERS.

With this number we commence a new year with the COURIER, the past has been an arduous one, and few, who have not been actually concerned in establishing a newspaper, can appreciate the difficulties of the task. Here it has been doubly hard, for the fact that two other local papers already existed in the neighbourhood, irrespective of the large circulation of the Toronto press. When we established the COURIER, it was our intention to have had the riding thoroughly canvassed, believing that success could be secured in no other way, but, like many another adventurer, on life's rough way, our means scarcely equalled our ambition, and we were forced to forego the canvass for subscribers. Still, without being able to avail ourselves of this element of success, the circulation of the COURIER has continued to increase at a rate highly satisfactory to us, denoting, as it does, that the public are impressed in its favour, and that commercial venture will succeed.

We have not, as yet, received as large a share of advertising patronage as we believe we are fairly entitled to. This probably occurs, partially, through the real extent and value of our circulation being unknown, and in a measure by reason of the illegitimate means which have been made use of to injure us in this respect, but the cure of this will come in good time.

We have now the largest circulation east and north of this, of any paper in the riding, and in due time, we have no doubt, shall reap the reward. And apart from our actual circulation, we may, without egotism, affirm, that no local paper is sought after and read with the same avidity as the COURIER. We have brought this about by hard work, that is by seeking continuously to give our readers an honest value for their money, without shirking our own labour at their expense.

Our columns are not filled with widely spread advertisements to the exclusion of suggestive editorial and other useful information, but contains each week, more original and selected reading matter than any paper in the riding. In the conduct of the COURIER we shall seek, in the future, as in the past, to make no uncertain sound; our readers shall always see which side we are on, and, while some may differ from us in opinion on the questions of the day, we trust that we shall always receive credit for treating them with honesty and candour. It has been too much the fashion in this riding, to make the newspapers overmuch subordinate to special interests; we only wish to subvert one interest, viz., the prosperity of the riding, and, we believe that can be done most thoroughly, by a paper perfectly untrammelled and independent; this was our opinion when we set the COURIER afloat, and the large measure of success which has attended our efforts, seems to justify the course we have pursued. We believed there was room for another paper conducted on fair and honest principles, and the result has justified the assumption. At the same time, we are well aware of the cry that was got up against us when we started the COURIER on its career, and are deeply grateful to those kind friends, who, with no guar-

antee but with in our integrity, have by their support and encouragement, enabled us to surmount the first and most trying obstacles of our position. As we remarked before, the obstacles in the way of a country paper, commenced on small means are well nigh insurmountable, and many times, doubtless, during the past year, our patrons have had to make allowances for apparent carelessness in the management of the paper, and for the paucity of editorials; but we have now, we hope, risen above the great difficulties of a tyro, and for the future, we promise our readers that the career of the COURIER shall be marked, so far as we can compass it by a steady improvement. We now fancy we know more of the business, and have the ground firmly under our feet. We have a deep conviction that it is the bounden duty of the journalist to treat on every matter of paramount interest which occurs in our midst, and in a spirit judicial and unbiased—"nothing extenuating, or setting down aught in malice." This is what we have done hitherto, and what we still intend; in so doing we have had to bear up against no little pressure, on more than one occasion, from parties esteeming themselves of sufficient weight and position to influence us in the management of the paper; but we apprehend these parties and the public are now becoming used to a paper conducted on a principle of its own, and are less astonished at our plain speaking. It is time here, that the true vocation of a journalist should be recognized, and his name freed from the reproach of being considered the mere reflection of a party or a clique.

EDUCATIONAL.

The public examination of the scholars of the Grammar School, previous to the Christmas vacation, commenced on Thursday and continued up to Tuesday evening. And it was very gratifying to see the marked improvement in the position of the school, and the warm interest which is taken in its success throughout the village and neighbourhood. The available room in the school was filled to overflowing with a most respectable and influential audience, who appeared highly pleased with the proficiency displayed by the pupils, as indeed they well might be, the examination giving ample proof of Mr. Anderson's skill as an instructor.

It is scarcely a year since the present Principal assumed the management of the school, we believe, only some seven or eight scholars, now there are thirty on the roll, with a prospect that the number will soon be such as will justify Mr. Anderson employing an assistant. In our opinion, the work to be done in one of these schools is so onerous as to render an assistant almost absolutely necessary; and we hope the Newmarket Grammar School will ere long be in a position second to none in any respect. It is of incalculable advantage to have such a seminary in our midst, and we trust a hearty appreciation of this will ensure such a support as will place it in the condition it deserves. We have a most excellent Common School, supported as such an institution should be; let us put the Grammar School in a like flourishing shape, and we shall not want to send anywhere else for education.

At the close of the examination, addresses were delivered by the Rev. Canon Ramsey, as chairman; the Rev. Mr. Chambers; and by Messrs. Bentley and Boulbee, as trustees, all expressing themselves much pleased with the progress of the school.

ELECTION MATTERS.

NEWMARKET.—The nomination for Reeve and Councilmen took place on Monday, when Messrs. Luke, Gorbam and Boulbee, were nominated for Reeve, and Messrs. Bache, Elvidge, Bentley, McCracken, Webster and Bowden, for Councilmen. As soon as the nominations were over, the Clerk closed the proceedings after stating that a poll would be opened, and positively refused to allow, either the parties nominated, or their proposers, to address the electors. He gave no reason for this action, simply saying he had the power and would use it. He was then requested to put it to the electors to decide whether the candidates should be heard, but refused to do so. It was thought at one time, we were to have a quiet election, but at present there is every indication of a stirring one. A numerous signed requisition got up by the Rate-payers, on Tuesday, asking the Reeve to appoint a meeting at an early date, for the purpose of getting a hearing from the candidates for Reeve and Councilmen, thus giving the gentlemen an opportunity to express their views regarding the affairs of the village. In our opinion, this is as it ought to be, whatever the law may have to do with the matter. The nomination is appointed some time previous to the day of election, for the purpose of letting the opinions and views of the different men with whom are to be entrusted the affairs of the town or village, as may be, or else why is there a day of nomination apart from the day of election?

WHITCHURCH.—For Reeve—J. Randall, Edward Wheeler, George Flint and James Patterson. For Deputy-Reeve—Philip Macklem, John Clibb and Seth Ashton. For Council—Robert Smith, Robert McCormick, Joel Baker, M. Jones and Arnold Haight.

KING.—Council elected by acclamation. Reeve—A. Webb. Deputy-Reeves—Joel Phillips and W. Musnie. Councilmen—Andrew Davis and James Bell.

EAST GWILLIMSBURY.—Reeve—Wm. Kane, by acclamation. Deputy-Reeve—Wm. Reid, H. Shuttleworth. Councilmen—Geo. Holborn, Henry Mosier, Peter Degeer and Wm. Kowan.

GEORGINA.—The election of Reeve and Councilors to serve in the municipality for the year 1869, closed on Monday last, the day of nomination, when the following gentlemen were with great unanimity selected, viz:—For Reeve—Archibald Riddell Esq. For Councilors—Messrs. George Fry, Angus Ego, Michael Humphrey and John Donnel. The four gentlemen first named were members of the Council now about to retire, the other member, Mr. Johnson, declining to be put in nomination will thus be replaced in the Council of 1869, by Mr. Donnell. The election passed off as we believe all elections do pass in Georgina—in a quiet and orderly manner, the result giving proof that the electors are capable of appreciating faithful service when rendered, and of rising superior to sectional or party prejudices, in the selection of their Municipal representatives.—Communicated.

NORTH GWILLIMSBURY.—At the nomination on Monday last, John Fairburn, Henry Draper, David Vannorman and Isaac Marritt, were nominated for Reeve. For Councilmen the following were nominated:—David Willoughby, Albert Barber, John Morton, John Purdy, Thomas Glover, Blijah Prosser, Friend Morton, Isaac Marritt, Joseph Glover and John Anderson. Of these, D. Willoughby, J. Morton, T. Glover and J. Marritt have withdrawn, all but except. The three first, from being Councilors the present year, and Mr. Marritt, from being Assessor. So the real candidates for Councilmen are A. Barber, J. Purdy, E. Prosser, F. Morton, J. Glover and J. Anderson. There is not much interest felt with regard to the Council, but a warm contest is likely to take place between H. Draper, the present Reeve, and John Fairburn, for the Reeveship.—Communicated.

A new Irish newspaper, to be called *The Auld Irishman*, is to be issued in Buffalo on January 2. D. O. Sullivan is to be its editor.

THE WHELAN TRIAL.

Judgement has been given on the motion made on the Prisoner's behalf, in the Court of Queen's Bench, and is against Whelan, Mr. Justice Morrison dissenting. We have read the judgement carefully, and from the cogent and logical reasoning as against the position taken by the Prisoner, we are inclined to believe he will gain but little through his application to the Court of Appeal.

Don't forget to call at the Common Variety Store and see them whether you are a purchaser or not. The shop is directly opposite Forsyth's Hotel.

ACCIDENT.—A boy named Charles Hill, met with a serious accident on Tuesday last, while trying to use a circular saw, in Mr. N. Botsford's shop. The boy was cutting a pair of sligh runners for himself, unknown to Mr. Botsford, when the accident happened, and not being accustomed to the work, his left hand was jerked by the wood across the saw, which severed the bone. Dr. Rogers attended, and sewed up the wound; and at present it is uncertain whether he will lose his hand or not.

VOLUNTEERS.—On Saturday evening last, there was a muster of the Volunteer Company of this village for the purpose of re-enrolling under the new Act. We are glad to state that there was a good turn out, and that those present enlisted a man. This shows that notwithstanding the disadvantages under which Volunteers, under the new law will labour, the Company of this village have done what they considered as their duty to their Queen and country, in thus again coming cheerfully forward to undertake this arduous, but honourable service. We are requested to state that there will be a meeting of the Company at the Royal Hotel on Monday evening, the 28th inst., at seven o'clock, for the purpose of taking into consideration the annual bill. The muster roll of the Company will be produced so that the remainder of those desiring to re-enlist, or any others wishing to volunteer, may do so.

Correspondence.

We shall be glad to receive items of news from different parts of the County, such as public meetings, festivals, Council reports, etc.

All Communications to be addressed to G. M. BIRNS, publisher and proprietor, and must be accompanied with the name of the author, not, however, for publication, (if desired otherwise,) but as a guaranty of good faith.

We do not hold ourselves responsible for the opinions here expressed.

To the Editor of the Newmarket Courier.

Sir,—In your contemporary recently, I noticed an article from the Secretary of Whitcomb Agricultural Society, referring to the awarding of prizes at the late Exhibition held in which he states "under some circumstances the competitor may show manufactures of other establishments, and be justly entitled to the prize, if awarded." If the Secretary would explain the circumstances referred to, he would much oblige.

IGNORAMUS.

Newmarket, Dec. 22, 1868.

NEWSPAPER DIRECTORY.—G. P. Rowell & Co., the New York Advertising Agents, are about issuing a complete American Newspaper Directory. It is a compilation much needed, since nothing of the kind having any claims to completeness has ever been published.

Messrs. Rowell & Co. have spared no pains or expense to make the forthcoming work complete. We understand the book will be a handsome octavo volume of about 300 pages, bound in dark cloth, and sold for five dollars per copy.

As the publishers are Advertising Agents, their issuing a work containing so much information, usually jealously guarded by those in that business, shows that they are confident of their ability to be of service to advertisers, or they would not so readily place in their hands the means of enabling every one to communicate direct with publishers if they so desire.

Colliery Explosion at Wigan.

FULL PARTICULARS.

A fearful colliery accident, caused by an explosion of fire-damp, and resulting in the death of at least 59 men and boys, took place at Hindley Green Colliery, near Wigan, on Thursday morning. The colliery, which consists of a single pit, sunk about four years ago, is the property of Messrs. John Serowcroft and Co. (Limited), who are extensive coalowners in the Wigan field. The depth of the shaft is stated at from 310 to 312 yards. The Arley seam of coal bears the reputation of being highly gaseous, but the Hindley Green Pit, which was thoroughly well ventilated, has hitherto borne a good character, and at any rate has been free from explosions, and singularly free from accidents. As nearly as can be ascertained about 3

SOMETHING NEW.

The Dominion Roller

THE undersigned has been appointed agent for the sale of rights to make and use the Dominion Roller for the Township of Whitchurch. The great advantage of this novel and Patent Invention is in the frame of the Roller being fixed by means of Hinges in its centre, so that the Roller being in two parts, its whole surface is constantly on the ground, whether used on furrow or otherwise. It took the first prize at the late Provincial Exhibition, and has been pronounced by competent judges, superior to anything yet in use.

THE BEST COUGH MEDICINE!

IN THE WORLD:

DR. JODIN'S FRENCH COUGH LEVERS

SHOULD be resorted to in all cases of Croup, Whooping Cough, Catarrh, Croup, Croup, Asthma, Shortness of Breath, and all disorders of the Throat and Lungs.

They are recommended with confidence to Ministers, School teachers, public Speakers, Singers, Auctioneers, &c. The Levers have been thoroughly tested in practice, and without a doubt, are better than any similar medicine yet introduced to the public.

READ THE FOLLOWING:

Halifax, N. S., Nov. 16, 1867.

I have given Dr. Jodin's French Cough Levers a full trial, and have little hesitation in saying that for a relief from hoarseness and sore throat, I much prefer them to either Bryans or Brown's.

T. W. CARBY, Lecturer to the R.W.O.L. of I.O. of G. Templars.

Napance, November 28, 1867.

I have used Dr. Jodin's French Cough Levers with great satisfaction and can confidently say, after testing them for weeks in special services, that I think them better than any other.

JOHN S. CLARK, Wesleyan Minister.

Toronto, February 28, 1868.

I have used Dr. Jodin's French Cough Levers with great comfort before and after speaking. Some of my friends tried them also, and there is but one opinion, viz: they are invaluable to singers and public speakers. I consider your Levers the best remedy in the world for hoarseness and throat disorders. Please send me one box more.

THOMAS MCMURRAY, Agent and Lecturer of the "Canadian Temperance Alliance."

"These Levers are prepared with the greatest care, as to cleanliness, being entirely free from gritty substances."

BLAKELY'S VERMIFUGE CANDIES.

They are justly celebrated for the expulsion of worms from children, and contain only vegetable ingredients. The most wonderful cures have been effected by them, and they excel all others at present known.

My child, fifteen months old, passed 82 worms after taking your worm candies, all the large as from six to thirteen inches long.

NEW MARKET STOVE, TIN, HARDWARE & IRON WAREHOUSE

WE would respectfully call the attention of the general public to read the following, worthy the attention of all purchasers:

SYKES & ELVIDGE'S

Is the only place where you can get a first-class article, and value for your money.

OUR STOVES

Are acknowledged by the Biding to be the heaviest, most durable and cheapest in the market. They are all warranted and guaranteed to be SUPERIOR IN QUALITY AND STRENGTH.

To any manufacturer. We would beg to caution you that want stoves against buying those that are got up entirely for sale and not for durability, as you don't know what you are getting when you buy these spurious, water articles that are got up entirely for sale and are dear at any price. Our

THIMBLE SKIENS

Are also of superior quality, and for strength and finish are second to none now manufactured.

CUTLERY AND PLATED GOODS

Are also the best value in the Dominion. Don't forget to call on us, as we can give you half a dozen knives and forks for 25 cents and upwards. Our

JACK KNIVES AND SPOONS

Are known to be the best and cheapest in Newmarket, and together with the Stoves and Tinware, excel everything in the market for

SUPERIOR QUALITY, STRENGTH, FINISH AND CHEAPNESS,

Leaving competition in the shade. And to you

BLACKSMITHS,

We are receiving, and have on the way for you, 40 tons of

THE GENUINE CROWN BRAND OF BAND, HOOP, ROD AND BAR IRON,

Together with a large and splendid stock of Cast, German, Sleigh-shoe, and other Steels, which we will sell to you as usual, at figures more satisfactory than anywhere else. And to all you

CHOPPERS

We have an article for you in the Axe line that your hemlock knots won't make the least impression on the edge of them, as they are of the celebrated Burrell manufacture, and all guaranteed to be I X L. Our

HAND, CROSSCUT, AND DRAG SAWS

Are also the best value in Newmarket, and stand unsurpassed for superior temper, finish, and superiority over all others offered to purchasers. And to you,

FARMERS AND PAINTERS,

We have for you the genuine Scotch Lead, and are sole agents here for that article. Our

PAINTS AND OILS

Are of Blundell & Spence's superior manufacture, and are too well known to need further qualification. And to you,

SPORTSMEN,

We have for you some very superior Traps, Shot Pouches, Powder Flasks, Shot, Powder, Caps, and everything in the Ammunition line that is required to capture the game; together with a large and splendid assortment of all kinds of goods belonging to the Hardware trade, and we would say to all you who need such articles to call and see us before you buy, as without further caution it will prove largely beneficial to all of you.

Respectfully soliciting an early and speculating call from all of you.

The Highest Price Paid for FURS.

THE BEST COUGH MEDICINE!

IN THE WORLD:

DR. JODIN'S FRENCH COUGH LEVERS

SHOULD be resorted to in all cases of Croup, Whooping Cough, Catarrh, Croup, Croup, Asthma, Shortness of Breath, and all disorders of the Throat and Lungs.

They are recommended with confidence to Ministers, School teachers, public Speakers, Singers, Auctioneers, &c. The Levers have been thoroughly tested in practice, and without a doubt, are better than any similar medicine yet introduced to the public.

READ THE FOLLOWING:

Halifax, N. S., Nov. 16, 1867.

I have given Dr. Jodin's French Cough Levers a full trial, and have little hesitation in saying that for a relief from hoarseness and sore throat, I much prefer them to either Bryans or Brown's.

T. W. CARBY, Lecturer to the R.W.O.L. of I.O. of G. Templars.

Napance, November 28, 1867.

I have used Dr. Jodin's French Cough Levers with great satisfaction and can confidently say, after testing them for weeks in special services, that I think them better than any other.

JOHN S. CLARK, Wesleyan Minister.

Toronto, February 28, 1868.

I have used Dr. Jodin's French Cough Levers with great comfort before and after speaking. Some of my friends tried them also, and there is but one opinion, viz: they are invaluable to singers and public speakers. I consider your Levers the best remedy in the world for hoarseness and throat disorders. Please send me one box more.

THOMAS MCMURRAY, Agent and Lecturer of the "Canadian Temperance Alliance."

"These Levers are prepared with the greatest care, as to cleanliness, being entirely free from gritty substances."

BLAKELY'S VERMIFUGE CANDIES.

They are justly celebrated for the expulsion of worms from children, and contain only vegetable ingredients. The most wonderful cures have been effected by them, and they excel all others at present known.

My child, fifteen months old, passed 82 worms after taking your worm candies, all the large as from six to thirteen inches long.

Mrs. ANNA WASSON, Napance, Ont.

For sale at Bentley's, Senter & Co.'s, and C. H. Simpson's, Newmarket, and all Druggists throughout the Dominion.
